Jira • Confluence • Data Reporting & Dashboards • DNS & Edge Networking • Microsoft Office Suite
Kentico / WordPress / Umbraco / Sitecore • Ruby on Rails • PHP • .NET / C# • Java • Git • Claude / AI Tools

PROFESSIONAL EXPERIENCE

Senior Application Support Engineer, Within3 **August 2020 – September 2026**
Remote

- Managed the full lifecycle of 200+ client-facing system builds — from requirements intake through implementation and go-live — translating business needs relayed by internal stakeholders into technical specifications.
- Configured and maintained data feeds and integrations (AWS SQS, Lambda, Step Functions, S3) that powered client-facing reporting and analytics dashboards.
- Wrote and maintained documentation on system configurations, custom patches, and hotfixes while resolving production issues to minimize downtime.
- Managed data pipelines and ingestion processes; configured parameter security and edge networking, including DNS routing.
- Drove system reliability and uptime through proactive monitoring, alerting, and on-call rotations for rapid incident response.
- Co-built a formal onboarding/training program for incoming engineers and led training sessions on environment configuration.

Digital Support Specialist, thunder::tech **January 2019 – August 2020**
Cleveland, OH

- Created and scaled the “support ninja” role, improving response time and increasing individual support tickets resolved by 40%.
- Scoped and developed feature requests and bug fixes; managed installation of all client SSL certificates and supported QA testing and site launches.
- Led CMS training sessions and authored CMS training manuals covering general knowledge and custom-built features.

Development Assistant, Beck Center for the Arts **April 2017 – August 2018**
Lakewood, OH

- Maintained the integrity of the DonorPerfect donor database, including generating reports, lists, and mailings.
- Processed donor acknowledgements for annual fund and special event gifts, contributing to $1M+ raised.
- Planned, organized, and executed 20+ fundraising, donor stewardship, and cultivation events.

Executive Assistant and Training Coordinator, Skylight Financial Group **August 2015 – April 2017**
Cleveland, OH

- Maintained client files and Salesforce CRM records for 1,000+ clients.
- Managed the training schedule for Cleveland, Columbus, and remote agencies, serving 50+ agents.
- Facilitated training sessions and assisted with development of the learning plan and recruitment.

Program Associate, Cleveland Leadership Center **September 2013 – August 2015**
Cleveland, OH

- Planned and executed 5+ concurrent events, handling photography, signage, and collateral creation.
- Researched, designed, and implemented a new donor gift program, reducing costs by 55% while improving turnaround time and product quality.
- Managed partner-drive gifts and acknowledgements for 600+ individuals using Raiser's Edge.

EDUCATION

Java Programming Certificate — Tech Elevator
Cleveland, OH | 14-week coding bootcamp: developing dynamic web-based software systems using Java

Bachelor of Arts, Music and Business (Concentration in Management) — Otterbein University
Westerville, OH

PERSONAL PROJECTS

- Job-Search Tracker (Tableau): Built a personal dashboard to track applications, response rates, and pipeline status.
